

KM Croatia | Fact Sheet

KM CROATIA

Making Metal Work

1901

Founding year in Germany

2013

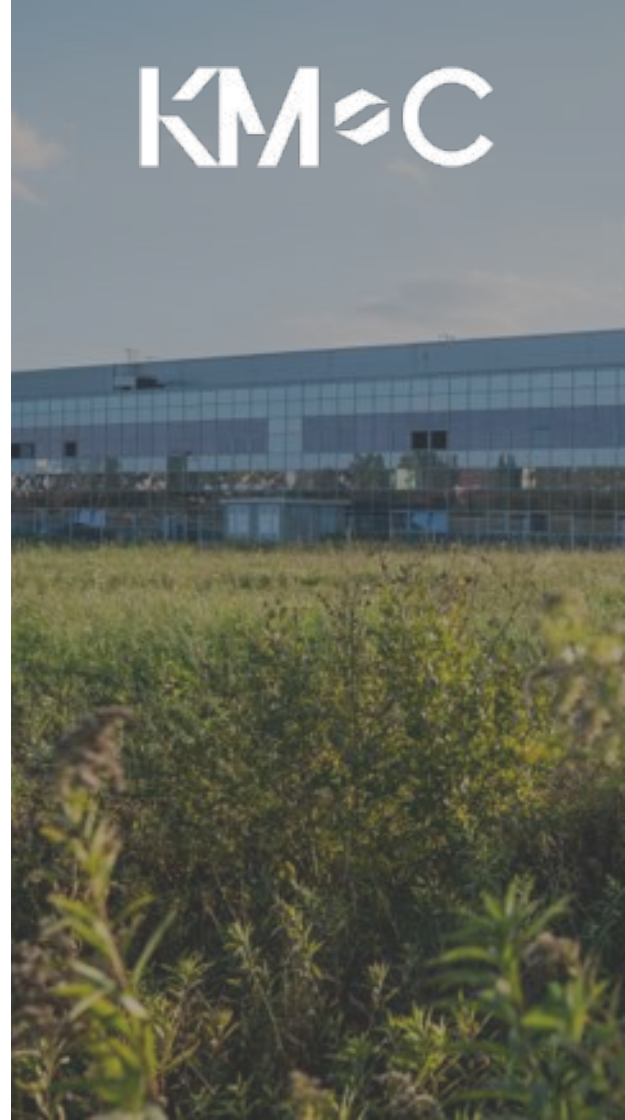

Founding year in Croatia

300

Full-time employees

8.000 m²

Production/logistics/administration

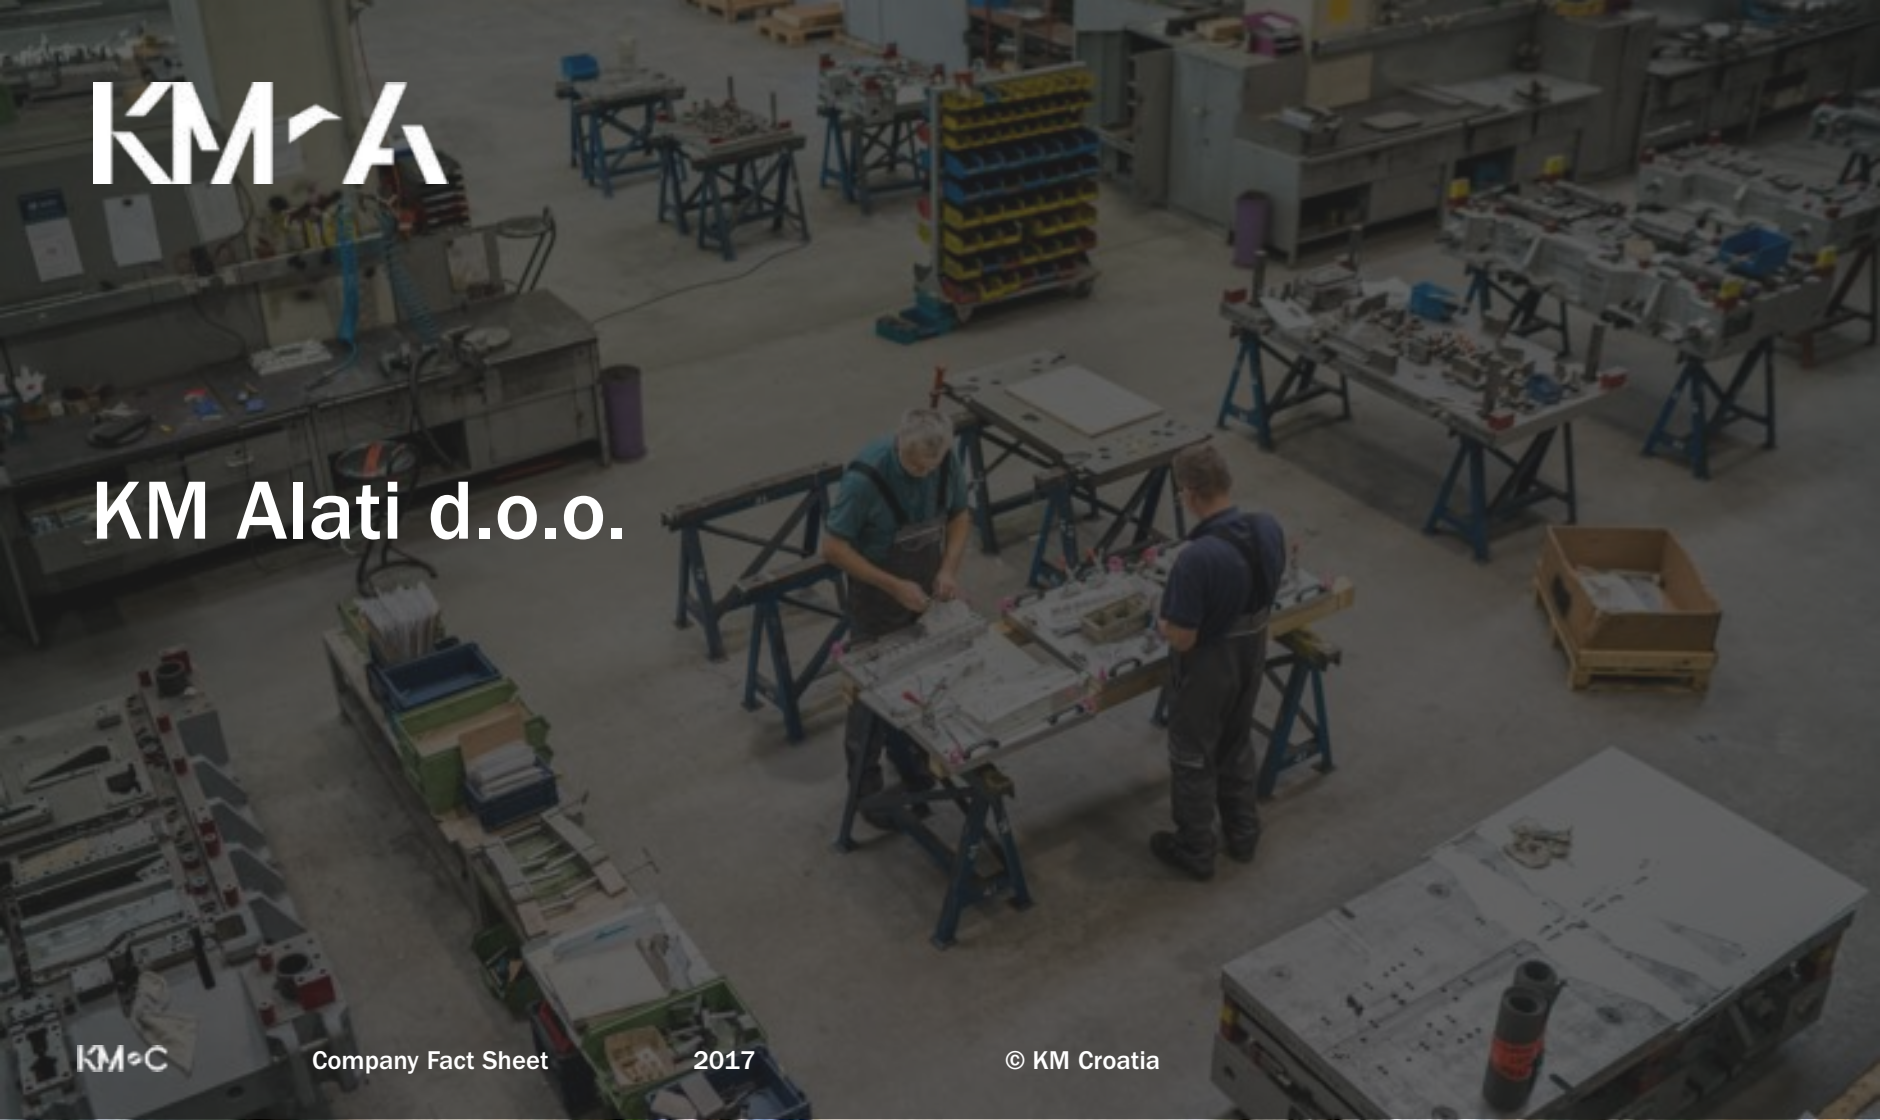

KM-A

State-of-the-art tool making: development, design and production of sheet metal tools and die casting moulds as well as mechanical processing and heat treatment.

KM-C

KM-K

High-tech metal processing: punching, welding, bending and pressing - on 25 presses with up to 630 tons of press force.

KM-A

KM Alati d.o.o.

KM ALATI

Building Tools for Big Players

70

Full-time employees

40

Tools developed/year

650

Tools maintenances/year

60

years of experience in tool manufacturing and aluminum die casting moulds

100

percent future-oriented through continuous digital transformation and Industry 4.0

KÖNIG METALL

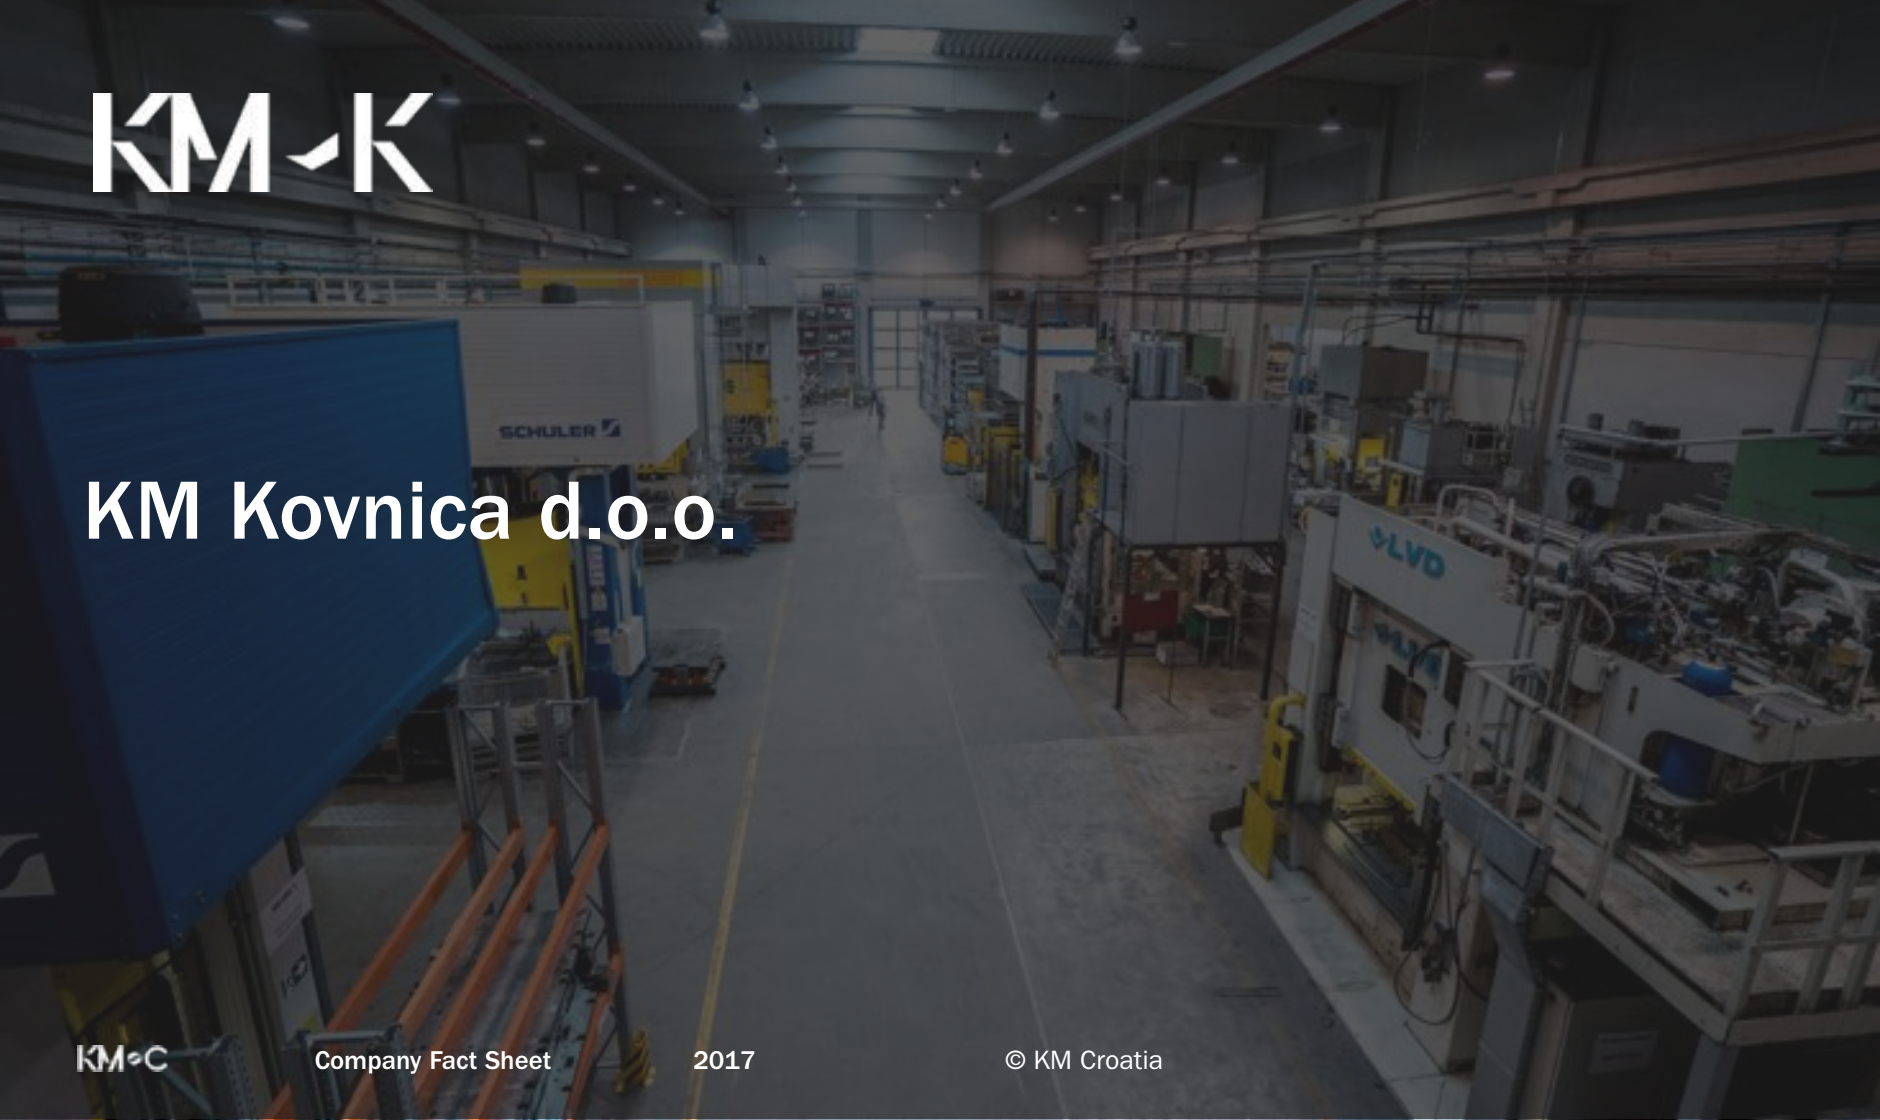

KM ALATI

Machinery & Software

- Catia / AutoCAD
- 1 6-axis machining center
- 10 CNC machining centers (Okuma)
- Bandsaws
- Grinders
- Lathes
- Deep hole drilling
- Hardening furnaces
- 3D measuring machines (Holos / Calypso)

KMK

KM Kovnica d.o.o.

KM KOVNICA

Handling Pressure Is Our Business

230

Full-time employees

700

Tools in production

2.200

Parts in portfolio

200

Parts of KM Kovnica in every Daimler truck

ISO/TS 16949 certificate

Multiple trucks/day commuting between

KM KOVNICA

Service Scope

- Punching/drawing/pressing
- Point/hump welding
- Bending
- Punch lasering
- Montage
- Measuring technology

KM KOVNICA

Machinery

18

Hydraulic presses 63 - 630 tons

Tool sizes: up to 3200mm x 1900mm
Schuler / Galdabini / Lauffer

4

Eccentric presses 125 - 315 tons

Müller Weingarten

9

Point/hump welding systems up to 200kVA

Tecna / Dalex

3

Press brakes

Amada

1

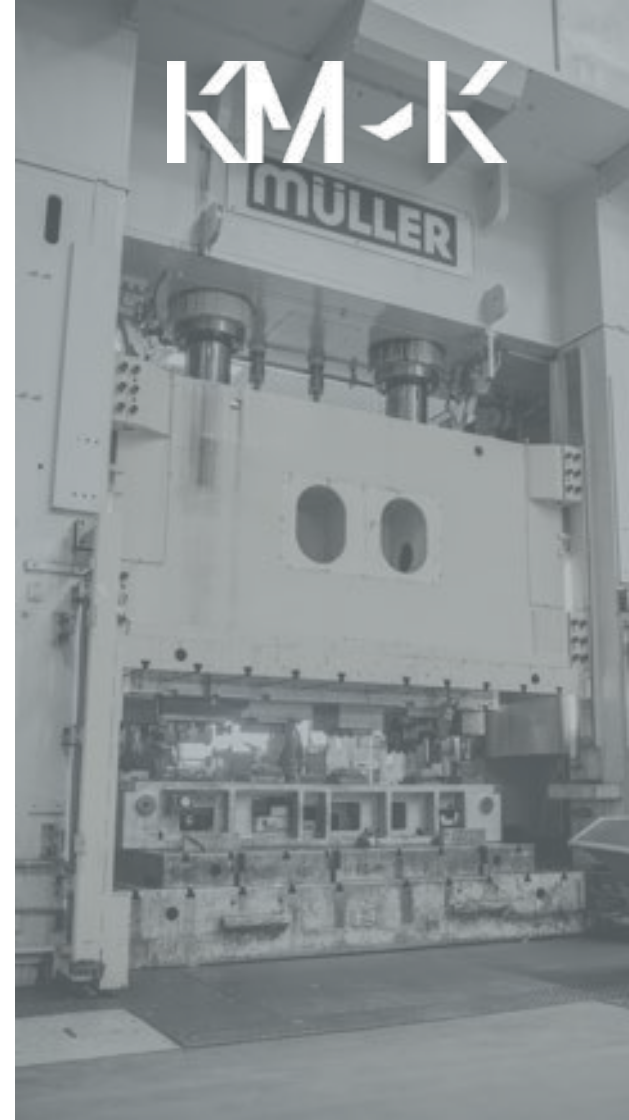

Punch-laser combination

Amada Apelio

2

3D measuring machinery

Zeiss

THANK YOU FOR YOUR ATTENTION.
HVALA NA POZORNOSTI.
